

Dear Contractor representative,

İLBANK is pleased to invite contractors to participate in a short contractor survey related to the **Post-Disaster Municipal Services Improvement and Resilience Project (PDMSIRP)**—the first Asian Development Bank (ADB)-financed project in Türkiye.

The proposed €150 million sector loan supports the investment program of İLBANK to help restore and enhance municipal services in areas affected by the 2023 earthquakes. The project complements national recovery efforts and contributes to broader reconstruction goals alongside other development partners.

In line with the government's "Build Back Better" (BBB) approach, the project will:

- Establish **disaster- and climate-resilient infrastructure** in water supply, sanitation, stormwater drainage, and solid waste management;
- Strengthen **institutional capacity** and promote **community awareness** for sustainable and resilient service delivery;
- Ensure that all designs and implementation measures comply with **updated national seismic standards** and integrate **climate, sustainability, and efficiency improvements**.

To develop a procurement strategy aligned with market realities and interests, and to ensure efficient and effective procurement and project implementation, İLBANK is conducting a survey to gather the contractor market's input on:

- General Experience in municipal infrastructure works,
- Views on procurement practices under internationally financed projects in Türkiye.

İLBANK and ADB kindly ask for a few minutes of your time to complete the survey form accessible through the following link:

Participation in the anonymous survey will be possible until July 4, 2025.

Thank you in advance for your participation and valuable contribution to this important initiative.

Best regards,

İLBANK
